2008 YTD	1.93	2.44	1.10	1.71	1.19	1.19	1.19	1.19	1.19	1.19	1.19	1.19

The power of RIMS:

- Corrective actions with automated emails & manager verification
- Employees sign off on their own corrective actions & add attachments
- Unlimited number of attachments per incident
- Approval & rejection workflow ensures managers review incidents for accurate & complete details
- OSHA 300 logs automatically generated based on injury data
- Scorecard reports for comparing incident rates by location
- Key Points Report provides incident summaries based on various filters such as date, location, those involved, incident type, etc
- Save contractor details for auto-populating data fields
- Track investigations and assign investigation leaders
- Use a color-coded risk matrix to easily select potential and actual severity and likelihood ratings
- Spell check feature helps with accuracy
- Witness Statement and Medical Refusal forms
- Optional incident reporting via mobile device forms
